

THE BICYCLE OF NO ADVANTAGE.

"We cannot advise a Westminister subscriber to proceed with his scheme at all. He has got a power of locomotion in his own limbs—if they are sound, and he will use them, to which all the machinery in the world can add nothing whatever."—*Mechanics' Magazine*, April 14, 1892.

"We must abide by the advice we gave a Westminister subscriber in our last number. We do hold it to be impossible for an individual to travel faster in the long run in a machine propelled by his own personal strength than he could do by employing his limbs in the usual and natural way. Man is a locomotive machine of nature's own making, and not to be improved by the addition of any cranks or wheels of mortal invention."—*Mechanics' Magazine*, April 21, 1892.

In view of the fact that we have sold 40 bicycles for March, and could have sold 20 more if only we could have had our stock of COLUMBIA CHAINLESS, the above clippings from the *Mechanics' Magazine* of 1892 are interesting. That editor way back in 1892 had "wheels" and never knew it.

THE BREW OF OLYMPIUS.

THE "HOFFMAN," corner of Hotel and Nuuanu streets, claims to be the "Banner" resort for gentlemen and holds the flag. L. H. Dee, the proprietor, has attained success in his line, by specially supervising everything connected with his establishment. He now introduces to his patrons the "Olympia Beer." This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne," Mr. Schmidt, the leading spirit of this corporation is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar qualities of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

Mikahala, April 6—Hans Isen-

berg, L. Kahlbaum, Jas Blackie and

son, Dr Campbell, Miss Palecki,

J. Luka and 18 on deck.

ITEMS FROM HARBOR FRONT

The S S Garonne will sail for

Seattle and Tacoma at 4 o'clock p

m on Friday, April 7.

The Kauai steamers report the

W G Hall and Kilohana at Kolo-

and the Wainaloa at Hanalei.

There were 57,074 bags sugar left

on the Garden Isle yesterday.

H M was in the lead with 15,000

bags.

The Kauai came in from Kau

late yesterday afternoon. The

pursor reports as follows: "Fine

weather at Kau; Punaluu cleaned

out of sugar; 490 bags left at Ho-

nuapo; the windlass broke while

heaving anchor at Punaluu.

The Cleveland will probably

get away for Manila late this after-

noon. However, this is not cer-

tain. She was to have sailed a

couple of days since but has been

delayed for one reason or another.

The Cleveland now has as bad a

list to port as she had upon enter-

ing port.

Zealandia at Pacific Mail.

The Zealandia hauled in from

the stream alongside the Pacific

Mail wharf this morning. A

guard was immediately stationed

and then several companies were

loaded for drill. The Zealandia

has begun to take on her coal

already.

Noeau to Mahukona.

The Noeau has been chartered

to sail for Mahukona with Sena-

tor Henry Waterhouse and others

this afternoon. After landing her

passengers she will sail for Eleele

with a load of coal, returning to

Honolulu with sugar. The Noeau

has the distinction of being the

boat that is always chosen to

make special trips.

Wreckage All About.

When the James Makee sailed

for Kapaa Tuesday afternoon, she

passed through a perfect sea of

the wreckage of the Edward O'

Brien. It was necessary for her

to feel her way in a very gingerly

manner for some time to prevent

running into some large piece that

might cause trouble. Captain

Tullett of the Makee says that a

lot of the wreckage will be piled

up on the Kauai coast as a current

from around Barber's Point runs

directly there.

Diamond Head Telephone Out.

"Central" announced at 1 p. m.

today that the Diamond Head

Signal Station telephone was

broken. A minute or so after-

wards, Charley Peterson, the look

out, came into the office with the

telephone in question dangling at

the end of the strap. He said it

was simply impossible to get any

use out of the instrument, so he

had taken it down and brought it

to town. In as an important a

place as the signal station he cer-

tainly should have a decent tele-

phone.
